

Bucket Fan Accessories

Fan Coozies

Cool Custom Covers

Individualize your fans and enhance the look of your building's interior with our Fan Coozies. The number of available colors and prints is almost endless. Logos can also be added. Contact your seller or VENTS to learn more.

Gripple Kit for Easy Installation

If you've ever used Gripples you know how easy, safe, and strong they are. As the saying goes, once you go Gripple you'll never go back. With our Hanging and Safety Cable Kit installation is so simple. Put the toggle through the handle hole and secure the other end with the Gripple. Not a single tool is needed. The kit saves an enormous amount of time and tremendously reduces labor costs.

Variable Speed Controllers

Our variable speed controllers put you in charge of thermal comfort. Depending on your requirements and needs, each fan can be controlled individually or up to 10 fans can be ganged to be controlled as one. It's as simple as turning a knob so what more needs to be said?
