CLAMPS

C - series

CZ - series

## FEATURES

The clamps are designed for quick and reliable mounting and connection of various round ventilation system components. The clamps facilitate the installation and removal of fans for maintenance and cleaning.

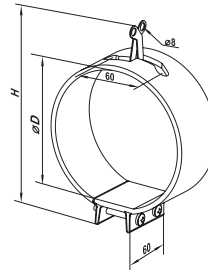

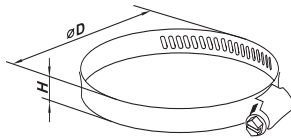

C series clamps are made of stainless steel strips. The clamps are tightened with screws.

CZ series clamps are made of galvanized steel strip sealed at one side with microporous rubber for the better airtight characteristics and vibration damping. The quick-detachable clamps are tightened with two bolts.
