

DMZ1 SERIES

LOCKING METAL ACCESS DOORS

APPLICATIONS

Designed for wall or ceiling applications. Enable quick and convenient access to concealed equipment and utility lines. Suitable for high-humidity areas. Protected by national patents worldwide.

DESIGN

Made of high-quality steel with a durable powder coating. The use of zinc phosphate compound ensures 100% coating integrity and provides a reliable corrosion protection. Left or right-side opening. Equipped with a key lock. A wide range of sizes. Custom sizes are available upon request.

MOUNTING

Easy mounting using caulk or glue. Universal mountings for left or right-side opening. Easy servicing.

FEATURES

DMZ1 series access panel is the special model of VENTS-US' access doors with screw lock. The access panels can be surface or flash mounted. Universal for all surfaces, easy and clean installation by applying glue or caulk to the back of the frame and pressing it into place.

Key lock
