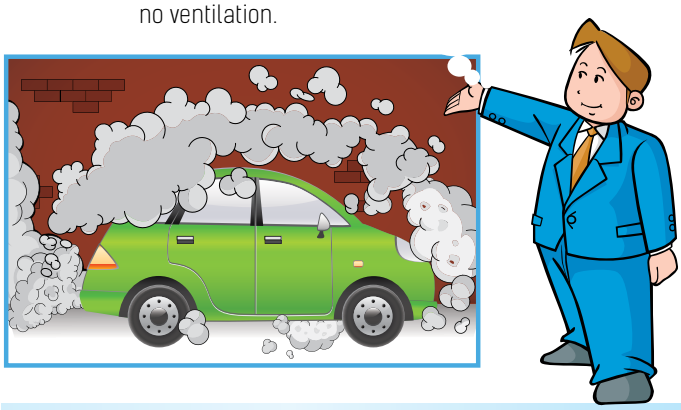
GARAGE VENTILATION KITS

GARAGE VENTILATION SOLUTIONS

Exhaust gases, fumes, dust, smell, paint vapors and harmful substances, which can pose significant risks to human health. Installation of high quality and reliable exhaust ventilation in your garage will significantly reduce the presence of harmful substances, dampness and moisture.

DANGER! High concentration of exhaust gases and chemical evaporations can lead to death in premises with no ventilation.



DANGER! No ventilation indoors can cause humidity level increasing and condensate formation that are perfect for mold, rot and fungus occurrence. Mold and fungus adversely affect human health and spoil stuff.

Effective Ventilation

YOUR BENEFITS:		
clean air	no build up of toxic fumes and harmful substances	continuos air circulation

Resistant to harmful environment

removes fumes and vehicle exhaust

cost-effective way of mechanical ventilation

high efficient, polluted air extraction

suited for simple retrofit or new construction installations

quiet operation

easy to install

continuous operation

maintenance-free

Intertek

HARDI

Kit specification:

Recommended for garages up to 100 sq.feet (airflow up to 109 CFM)

	Duct dia	Volts	CFM	Sones	RPM	Max Watts
LD Kit 125	5"	120 V/ 60 Hz	79	2.16	2400	15.4
LD Kit 150	6"	120 V/ 60 Hz	109	3.00	2337	32.9

Easy Installation

Wall-through application

Recommended for garages up to 160 sq.feet (airflow up to 176 CFM)

	Duct dia	Volts	CFM	Sones	RPM	Max Watts
MA Kit 125	5"	120 V/ 60 Hz	102	2.6	2150	19.2
MA Kit 150	6"	120 V/ 60 Hz	176	2.7	2130	35.2

Recommended for garages up to 280 sq.feet (airflow up to 300 CFM)

The powerful centrifugal fan is installed on the external wall and exhausts polluted air outside.

	Duct dia	Volts	CFM	Sones	RPM	Max Watts
VCN Kit 100	4"	120 V/ 60 Hz	238	7.20	3100	108
VCN Kit 125	5"	120 V/ 60 Hz	248	7.10	2950	108
VCN Kit 150	6"	120 V/ 60 Hz	302	7.84	2250	109
VCN Kit 200	8"	120 V/ 60 Hz	306	8.10	2300	106

Easy Installation

Ceiling mounting
