

MV 120 J, MV 120 VJ, MV 120 VNJ SERIES

PLASTIC GRAVITY GRILLES

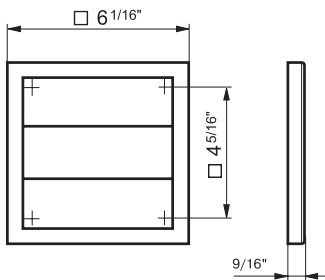

DESCRIPTION

Four-louver design provides excellent air exhaust characteristics. The grilles are suitable for inside or outside mounting. Hidden screws provide seamless design. Ideal for dryer venting and for kitchen and bath fan exhausts. Lightweight louvers allow the airflow to pass through with minimum air resistance. Backflow control eliminates the entry of insects or other wild life. Removable louvers allow easy cleaning. Available in colors indicated in the color chart. Easy screw mounting. Grilles are manufactured of ABS plastic (flame rating – 5VA).

MV 120 J

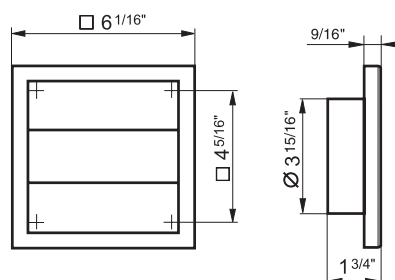

Contains no collar, the vent hood mounts on the wall with screws

Air pass 0,1722

MV 120 VJ

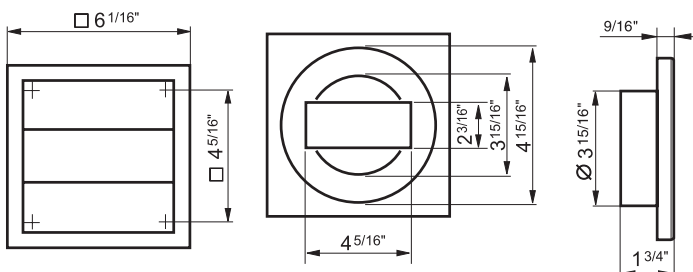

The grille is compatible with 5" diameter duct

Air pass 0,1216 Sq. Ft
