

DESCRIPTION

Specifically designed for direct air exhaust through the wall the VENTS OVK1 series fans are perfect ventilation solutions for parking garages, agricultural facilities and stores. These fans can effectively and quietly handle major ventilation challenges such as large warehouses without taking up valuable space.

CASING

The fans' body is made of steel with polymeric coating while the impeller is made of aluminum.

MOTOR

Asynchronous motor on ball bearings and thermal protection ensure safe and smooth operation.

SUITABLE FOR:

Commercial, educational, government or industrial buildings.
