

TT 315

TURBO TUBE series fans are ideal solutions for multipurpose use in residential and commercial ventilation. TURBO TUBE fans combine the features and benefits of both axial and centrifugal fans. Used for both supply and exhaust applications that require powerful airflow.

• Motor type: AC

Impeller type: Mixed-flowCasing material: PlasticInstallation in any position

	Unit of measurement	TT 315				
Connected air duct size	in	12 3/8"				
Speed	-	2				
Minimum supply voltage	V	120				
Maximum supply voltage	V	120				
Power supply frequency	Hz	60				
Rated power	W	224	343			
Maximum unit current	А	1.89	2.95			
Maximum performance @0.1"	CFM					
Maximum performance @0.2"	CFM	780	1020
